EDUCATION

University of Washington, College of the Environment <i>Bachelor of Arts in Environmental Studies</i> Cumulative GPA: 3.47/4.0 Dean's List, 8 quarters, WSOS Scholarship, Leadership 1000 scholarship	Seattle, WA June 2024
University of Washington, Department of Geography <i>Bachelor of Arts in Geography: Data Science</i>	Seattle, WA June 2024
University of Washington, College of the Built Environment <i>Master of Urban Planning: Land use and Infrastructure</i>	Seattle, WA June 2026

WORK EXPERIENCE

Liveable City Year Project: Granite Falls <i>Student Intern</i>	Granite Falls, WA January 2025 - Present
- Assisting in the development of an Initial Conditions Report to guide the redevelopment of the Granite Falls Community Center. - Conducting research on the economic, tourism, and culture impacts of redevelopment on the city. - Applying urban design principles to reimagine community center features, utilizing SketchUp and Illustrator to create conceptual designs.	

AI Data Innovations <i>Temporary Data Collector</i>	Bellevue, WA October 2024 - December 2024
- Conducted quality assurance checks and organized data using spreadsheets. - Maintained a professional and welcoming atmosphere to enhance participant experience. - Collaborated with team members to meet project objectives and support office operations. - Managed participant check-ins and scheduling.	

<u>Puget Sound Sage</u> <i>GIS Analyst</i>	Seattle, WA March 2024 - June 2024
- Performed spatial analysis using ArcGIS Pro and developed an ArcGIS StoryMaps to evaluate five-year threat and opportunities in Pioneer Square. - Conducted research, prepared specialized studies, and analyzed Seattle's master-use permits data to identify and categorize regional property ownership changes. - Familiarity with principals in land usage and infrastructure planning when developing ArcGIS StoryMaps.	

UW Recycling <i>Contamination Reduction Student Assistant</i>	Seattle, WA April 2023 - June 2024
- Led community engagement and outreach initiatives to promote sustainable waste management practices. - Collaborated with UW departments and organizations to create strategies for reducing contamination. - Assigned to various projects that have facilitated skill development in areas such as taking proactive initiative in developing an analysis tool to easily review their social media campaign engagement. - Assisted with developing digital graphics that fostered engagement and communicated best practices for recycling.	

<u>Chehalis Basin Partnership</u> <i>Resource Management Intern</i>	Seattle, WA Summer 2023
- Developed a hydrology web map of Scatter Creek and coordinated volunteer efforts to collect data through citizen science initiatives. - Developed and implemented a survey to capture residents' perspectives on local restoration efforts in their community. - Delivered presentations and technical reports to stakeholders and local communities on resource management strategies.	

- As part of my capstone research, I wrote a synthesis paper on Beaver-Related Restoration, emphasizing the role of human dimensions and analyzing how these factors affect community acceptance of restoration efforts.

LEADERSHIP & PROJECTS

INRIX Hackathon, *Developer Participant*

October 2023

- Developed a data-driven tool using Amazon APIs and React, providing real-time routing alternatives to minimize fuel consumption and enhance transportation sustainability.
- Used Python and statistical analysis to benchmark route efficiency, supporting urban mobility initiatives.

Washington State Opportunity Scholarship, *Scholar Mentor*

Sept 2021 - June 2023

- Mentored 12-17 first-year and second-year students, offering personalized guidance on academic resources and career planning to enrich their college experience through structured mentorship programs.
- Maintained timely communication via email, participated in weekly core meetings, and conducted quarterly one-on-one sessions with mentees to support their academic and personal development.

ReThink RSO, *Research Team*

Sept 2021 - June 2023

- Led a team researching and connecting with local Seattle businesses that prioritize sustainability in their mission.
- Assessed each business's sustainable practices based on established criteria, and features those meeting the standards on our website as resources for UW students.

VOLUNTEER EXPERIENCES :

UW Food Pantry, *Volunteer*

Sept 2021 - June 2022

- Supported daily operations by stocking shelves, assisting customers, and participating in food distribution.

WashPIRG, *Affordable Housing and Food Insecurity Awareness Coordinator*

Sept 2021 - April 2023

- Organized awareness campaigns and fundraising events to support local and food pantries.
- Coordinated volunteers to ensure the smooth execution of events and outreach initiatives.

Skills:

- Programming & Data Analysis: Python (Pandas, NumPy, Matplotlib), SQL, Machine Learning.
- Urban Planning & Design: SketchUP, Adobe Creative Suite (Illustrator, Photoshop, InDesign), GIS Mapping.
- Project Management & Research: Project Coordination, Data Collection & Analysis, Report Writing.
- Software Proficiency: Microsoft Office Suite (Excel, Word, PowerPoint), Google Workspace.
- Languages: Bilingual in Spanish & English
